The following are a few complimentary opinions of the Press: PAPER MOISTENER .- A new and very neat useraped Moistkers.—I new and very neat useful invention for moistening post office stamps, envelopes, sheets in a copying book, counting bank bills, &c. This does away with the disagree able method of moistening stamps, &c., with the ongue. It is a patent article, vary simple and cheap, and will be universally adopted as soon as t is seen.—Boston Transcript, Sept. 1854.

PAPER MOISTENER.-A new invention for mois ening postage stamps, envelopes, sheets in a copying book, counting bank bills, &c. The common way of mostening stamps with the tongue is very disagreeable and inconvenient; also the usual way of wetting sheets in a copying book, by using a brush which has to be dipped in water, is inconvenient and very difficult to give paper an even moisture, which is very desirable for copying letters. This article obviates these difficulties, besides being useful for various other purposes. It is also perfectly simple and cheap, and must come into general use.—[Boston Post,
